

Dangerous Decibels® Educator Kit

This kit meant as a supplement to the Dangerous Decibels Educator Training Workshop that prepares and equips you to present the complete Dangerous Decibels classroom program that has been shown to improve knowledge, attitudes, and intended behaviors related to prevention of noise-induced hearing loss and tinnitus.

This kit gives you supplies to help you design and present your own classroom program on prevention of noise-induced hearing loss and tinnitus. For information on where and when the next two-day workshop will take place contact the office below.

Included in the kit:

- Sound Level Meter
- Pipe Cleaners (for stereocilia model)
- Tuning Fork (physics of sound demo)
- Ping Pong Ball (sound is vibration demo)
- Dangerous Decibels DVD (info and activities)
- Dangerous Decibels Teacher Resource Guide
- Ear Anatomy Poster
- Hair Cell Photos (Before and After Noise Exposure)
- Caution Signs
- Web Resources List
- and other fun and informative flyers and handouts
